

BY AUTHORITY.

FOUND NOTICES.

I HAVE THIS DAY APPOINTED MOAKE, AWE as Keeper of the Found for Kure, at Kure, Hawaii, in place of D. Kellie, resigned.

POOMAIAKELANI.

Governor of Hawaii, 343-1st St., Honolulu, Hawaii, December 30th, 1884.

Interior Department.

Sealed proposals will be received at the office of the Minister of the Interior until 12 o'clock noon on Saturday, the 25th day of February, 1885, for the construction of the works herein named.

Plans and specifications may be examined at the office of the Minister on and after the 9th day of February, 1885.

The works to be constructed are—

First—The basin of the Storage Reservoir, i.e., removing all trees and other vegetable growths, and excavating and removing all earth and rock within the indicated lines.

Second—Building a dam of first-class rubble masonry laid in full beds of hydraulic cement.

Third—Laying the line of fifteen and twelve inch pipes and setting gates between the storage reservoir and that of distribution, and from the latter to the point of consumption with the pipes, valves, etc., of the city. Note—This work may be divided and let in two or three sections.

Fourth—Constructing a distributing reservoir consisting of an excavation lined with hydraulic cement, concrete or brick-work laid in full hydraulic cement beds and joints, the crosswall and bays to be similarly constructed and the whole roofed over.

All proposals must be endorsed "Proposals for doing the particular work for which the bill is made."

A bond must be executed by the contractor with two approved sureties on file upon the faithful performance of the contract.

The Minister reserves the right to reject the lowest or any bid.

Bids may be made for all the above in one contract.

CHAS. T. GULICK, Minister of Interior.

Interior Office, Dec. 29, 1884. WJ30-217 for

LOCAL AND GENERAL.

The audience at Kawaiahao numbered about 750 persons last evening.

It is pleasant to see Governor Dominis about again after his recent illness.

Affairs at the Police Station were very quiet yesterday, there being literally nothing doing.

Another beautiful rose-colored ante-sunset sky last night, with a red glow upon the clouds over the mountains.

Messrs. Jules Taverler, J. D. Strong and one or two others leave here for Hawaii and the Volcano to-morrow afternoon.

On Saturday night last quite a smart shower of rain fell within the city limits, but it did not extend much beyond the town.

On Saturday last a scaffolding was erected in front of the bank building to enable the workmen to renovate the outside of the structure.

There will be an auction clearance sale at the Temple of Fashion to-night. Good chance to secure some nice furnishing goods, etc., at a bargain, as there will be no reserve.

Whoever knows of the whereabouts of the little black-and-tan terrier "Bessie" will confer a favor on the lady owner by leaving information at the Library, or at the office of this paper.

A rifle for money prizes that was being held last Saturday night was interrupted by the arrival of Marshal Soper, who stopped the whole business, and took charge of the implements.

A small pile of loose packing material and rubbish in the lot adjoining the Union Feed Store caught fire last Saturday afternoon.

It was discovered by Engineer White and extinguished by a bucket or two of water.

The coin-wrappers just issued by Mr. J. E. Wiseman are for dollars and half-dollars in sums of \$20 each, and not for quarters also. They are made of smooth, tough paper, and bear Mr. W.'s business card on their surface.

The last trial of the Harden Hand Grenade took place last Saturday night on the open space in front of Engine Co. No. 2, and was a complete success. The grenades have been proved to be just the thing to stop fires in their incipient stage, and many will, no doubt, provide themselves with them.

The Beet Sugar Industry.

The Chronicle, in speaking of the estimate of Professor Wiley as to the acreage in California suited to the cultivation of sugar beets, makes quite an error in saying that 700,000 acres is seven-tenths of the acreage of the State. One per cent. of the area of California is about 1,000,000 acres, and seven-tenths would be 700,000 acres, according to our calculations. We quite agree with the Chronicle that the beet sugar industry is capable of very large development on this coast. That an industry which promises so much will remain long undeveloped it is hard to believe. It is singular that questions relating to foreign trade should occupy so much attention, when a home industry, embracing so many favorable features as that of sugar production, should be neglected. If, as Superintendent E. H. Dyer, of the Alvarado Sugar, says, white sugar can be manufactured from beet roots—costing not to exceed \$4 per ton, at about 5 cents per lb.—what danger is there from foreign competition in this business? The facts in relation to this statement are demonstrable, and if correctly given, sugar should be an article of export—and that, too, within a very few years. We regard Professor Wiley's visit to the Coast as favorable to the beet root sugar industry.—Grocer and Country Merchant.

Mrs. Hampson's Evangelistic Services.

The Y. M. C. A. Hall was filled last Friday night by an audience composed chiefly of Christian people, for whom, as was announced, the meeting was especially designed. Mrs. Hampson delivered a very interesting address preparatory to the evangelistic exercise begun yesterday (Sunday) in Kawaiahao Church. Explicit and suggestive instructions were given to workers in the inquiry-room, singers, ushers and others.

As announced, the evangelistic services proper began Sunday morning at 11 o'clock in Kawaiahao Church. A large corps of painters have been at work in the inquiry-room, and it has been only renovated and repainted. The work was finished at 11 o'clock, so that the point will have plenty of time in which to dry.

At a meeting of the Committee of Arrangements, held last Friday, it was decided to hold mid-day prayer meetings in the Bethel Church from 12 to 1 o'clock every day this week, beginning to-day.

There was no services at Fort Street and Bethel Churches yesterday.

Meetings will be held in Kawaiahao Church every night this week at 7:30 p. m.

A Strike.

From Lahaina, Maui, the report is received that on the 2nd instant, all the Chinamen working for Mr. Horner on Mr. Turton's plantation struck work. They had been receiving \$17 per month, and Mr. Horner undertook to reduce their wages to \$16. They had previously been receiving from \$17 to \$20 per month. The Chinamen took the matter of a reduction to \$16 into consideration, and the next morning not one was at work. They told Mr. Horner that they would accept \$19 per month, which he would probably have to give, as the mill was in the middle of the grinding season.

On the same class of labor at Makawao and on the other side of Maui were worth \$20 to \$26 per month, and scarce at that.

A Card.

The undersigned heartily thanks the kind friends who have so generously contributed to the present of one hundred dollars, to make up for my losses by the late storm; and my least wish for them is that the storms of life may best gently upon their heads.

CHARLES PETERSON, The Lookout.

Diamond Head, Jan. 1, 1885.

ISLAND NOTES.

KOHALA, Hawaii, Jan. 2d, 1885.

The English Church was beautifully decorated on Christmas with flowers and ferns, and a large number of people attended service. Rev. Mr. Whalley is fast growing in the esteem of the residents, as he heartily deserves for his untiring efforts for good.

The gentleman residing in the portion of the district known as Outside, have gay times every week playing Polo. It is a sport requiring good horsemanship and nerve, both of which most of the participants possess.

A prominent sugar planter of the district was seen one day last week balancing himself on a wire fence and looking as though he was disgusted with this world, and wanted some one to help him into another. He was singing, however, and upon near approach, we caught in mournful tone the following words:

"There was a young man in Hawaii Who to make money from sugar did try, But the agent's commission, And their sin of omission, Knocked his calculations to pie."

The meekest man in Kohala purchased \$1.25 worth of goods six months ago and last week returned them, saying he had concluded not to take them.

Our missionary police are said to be spending the Sabbath collecting taxes of Chinamen on the streets. We don't know whether it goes to the Foreign Board of Missions or to the Minister of Finance.

The social of the English Church met at Rev. Mr. Whalley's on Monday last. A good number were in attendance, though the weather was far from propitious.

The store of S. G. Wilder & Co., near Dr. Wright, is having a new coat of paint, and, verily, it looketh better.

The hole in the road at the bridge over the stream between Halawa and Makapala is still where it was, and perhaps if we had another Supervisor-General of Roads and eight or ten local Supervisors we might get these little, but dangerous, places fixed.

HONOLULU, Jan. 2, 1885.

A malicious and cowardly act was perpetrated here last night on an old German shoemaker (John Bach) a number of drunken Kanakas, entered his house about 12 o'clock at night and beat him on the head with rocks, causing several nasty wounds, and then broke every window in the house. The parties are known, or at least, some of them. This goes to show the necessity of a few good policemen in town.

We are glad to see our old friend Marshal Parke in town.

Band Concert.

The Band will play the following programme this evening, at 7:30, at Emma Square:

PART I.

Overture—"Romilda and Constance"..... Meyerbeer

Gavotte—"Imperial"..... Faust

Cavatina—"Bellario"..... Donizetti

"Reminiscences of Bellini"..... Godfrey

PART II.

Medley—"Pleasant Memories"..... Beyer

Waltz—"Laura"..... Millocker

Quadrille—"Beggars Students"..... Millocker

"Oinoa Nani"..... "Hawaii Point."

LATEST FOREIGN NEWS.

Berlin, Dec. 22.—The American neutrality scheme was shelved by the Conference through the opposition of the Council, who affirmed that France was unable to accept it in any form whatever. Germany and England warmly supported America.

Cairo, Dec. 22.—General Wolsley will complete the concentration of his army at Korti the first week in January, and will begin his march through the desert upon Shendi on the 7th of January. The distance from Korti to Shendi is 200 miles, and General Wolsley calculates the march will occupy sixteen days, unless he meets with opposition from the enemy en route. Simultaneously a movement will be made from Suakin against Osman Digma, in order to secure from attack the flank of the Nile expedition of General Wolsley. General Stevenson will leave Cairo for Suakin on Wednesday, to assume command of the expedition from that place. Major Chermade reports that out of the garrison at Suakin, of 12,000 marines and sailors, there are only 100 effective men. Fresh troops will be sent to Suakin.

Berlin, Dec. 22.—A large meeting of the National Liberals was held to-day, and adopted resolutions of approval of Bismarck's foreign policy, and declaring the action of the Reichstag unworthy of the Empire and opposed to the wishes of the people.

London, December 22.—Interest in the Nicaragua Canal project is abating. The Spectator says that "if the statesmen of the United States would legislate against the dynameters a compromise would be easy. Vanity Fair says it "it sees nothing that England ought to object to in the Nicaragua Treaty. The English treaty with Nicaragua, which was concluded by Lord John Russell in 1850, secures to England the highest privileges enjoyed even by Nicaragua. If the people of England knew the disgraceful history of the Bulwer-Clayton Treaty, they would desire it to be consigned to eternal oblivion."

Berlin, Dec. 22.—At the Congo Conference to-day General Sandford, American delegate, asked how it was proposed to extend the provisions of the Postal Convention, in the absence of means of communication. Dr. Bush replied that it would be best that the German Chancellor should transmit to the Powers the German Postmaster's recommendation.

Paris, Dec. 22.—In the recent engagement with the Chinese near Chu the French lost twenty killed and ninety-three wounded.

An Old Story.

Fisherman John is brave and strong—None more brave on the coast than he: He owns a cottage and fishing smack, As snug as ever need be: And, what is truer than I could wish, Fisherman John loves me.

Often and often when day is done, With smiling lips and eager eyes He comes to woo me. In every way That a man may try, he tries To win—but that he can never do, Though he woo me till he dies.

Fisherman Jack is a peevish man—He owns not cottage nor fishing smack: But a winning voice and smile is his, And a brow that is never black, Why should I break my heart to tell— But I love Fisherman Jack.

He loves not me, but every night, He sits at the feet of Kate Mahon: Never a heart has she for him, For she loves Fisherman John, Who cares no more for love of hers Than the sea he sails upon.

Often we wonder, do Kate and I, That should cross us so cruelly, We think of the lovers we do not love, And dream of what life would be If only Fisherman John loved her And Fisherman Jack loved me.

—CARLOTTA PERCY.

Useful Hints.

Lamp-black, if mixed with raw linseed oil, is liable to spontaneous combustion.

To remove paint spots from clothing, saturate the fabric with equal parts of turpentine and water of ammonia.

Galvanized iron pails are not desirable receptacles for drinking water. The zinc coating is apt to be affected by the water and an oxide of zinc formed.

Tar may be removed from the hands by rubbing with the outside of fresh orange or lemon peel and drying immediately. The volatile oils dissolve the tar so that it can be rubbed off.

A Break-down in the New York Stock Exchange.

[N. Y. World.]

A 15-year-old negro boy of diminutive size, with a face as shiny and black as the brokers' beaver hats, who plays popular melodies on the flue, was discovered by some festive brokers blowing his instrument in New street. He was dragged into the Exchange and told to play in peril of his life. He began, and for fifteen minutes bedlam was set loose. Brokers forgot about the Central new issue of bonds and began to sing "Glimpse of Golden State" and "When Gabriel Blows His Trumpet in the Morning." This was followed by an Irish jig. Four hundred brokers danced a "breakdown" in broad daylight, amid the clicking of the tickers and at a time when minutes meant thousands of dollars, and when the financial world is watching their transactions with breathless interest. Chairman Hendricks wrapped for order in aim. He distributed rebukes and \$10 fines with unparrying hand, but all to no purpose. The boys were bound to have some sport, and they had it.

The colored boy at the end of twenty minutes found himself outside the exchange, with his pockets filled with silver to the amount of \$45, and he went on his way rejoicing.

Why She Had no Fun.

[San Francisco Post.]

The prettiest girl at a Sausalito picnic the other day was observed to act in a most inexplicable manner. She peremptorily refused to dance, swing or climb the rocks after ferns. Later in the day she was found by another girl weeping bitterly under a bush.

"What on earth's the matter, Guselo?"

"Why, you see, Sophy," sobbed the weeper, "I can't have good time, nor enjoy myself a bit. I started off in such a hurry this morning that I forgot to put on my other stockings. Thus 'conscience doth make cowards of us all,' etc."

Colors in the Mississippi Valley.

Professor Bartholow says that "the Mississippi valley is as much the habitat of cholera as the Ganges is, the condition being the same, and sporadic cases occurring every year." The doctor, who has had a large experience with the disease, affirms that "for its treatment there is no agent comparable to chloral."

WARNING.

Notice is hereby given that all persons found placing dead animals on the reef, attaching them to the harbor buoys, or depositing them where they may be a public nuisance, will be prosecuted.
